

Code	Definition
*Care delivery adaptation	Describes operational and care delivery adaptations related to COVID. (Merged: Adaptation_catch up, Adaptation_workflow, Adoption_Challenges, Adoption_facilitators, Care delivery_future reflections, Care delivery_Initial Covid response, Care delivery_In person visits)
*Care Prioritization	Describes how practices prioritized which patients to bring in for visits, which patients to receive care over others
*Culture	Describes practice culture among staff. Includes internal support provided by the CHC conglomerate or leadership to the staff (e.g. staff meetings, trainings, EAP or HR support, hero bonuses) and description of staff morale. (Merged: Information/assistance_Internal staff support and Staff Morale) ^[P] _[SEP]
*Leadership	Use to track leadership's involvement with operational changes including who drove the changes, support through change from leadership to staff members
*Patient support	Describe how practice staff supported patients through change. Includes technical support for telemedicine, changed messaging to help patients overcome fear of getting screened in the hospital. ^[P] _[SEP]
*Quality Improvement	Can be used to describe a practice's history with quality improvement initiatives, as well as any QI-type tools or support received to address care changes related to COVID. RQ: What information and assistance did the CHCs receive initially? What information and assistance do they anticipate needing over the next several months as the pandemic continues to unfold?
*Telemedicine	Describes anything related to telemedicine adaptation. (Merged: Adoption_telemedicine, Telemedicine support_available, Telemedicine support_needed, Telemedicine_Benefits, Telemedicine_Challenges) ^[P] _[SEP]
+Cancer prevention_cervical cancer	Use to track when a participant is discussing cervical cancer prevention (e.g. pap smears, colposcopies). This code should typically not stand alone and should be co-coded with other codes (e.g. telemed_cancer care)
+Cancer prevention_colorectal	Use to track when a participant is discussing colorectal cancer prevention (e.g. iFOBT, FIT test, CRC screening, colonoscopy). This code should typically not stand alone and should be co-coded with other codes (e.g. telemed_cancer care)
+Cancer prevention HPV immunizations	Use to track when a participant is discussing HPV immunizations. This code should typically not stand alone and should be co-coded with other codes (e.g. telemed_cancer care)
+Cancer prevention_Impact	Describes the impact that COVID had on delivery of cancer preventative screenings (including all that we probe for on the guide: smoking cessation, colon cancer, mammograms, etc.)

	<p>Use to track which screenings immediately halted, which were prioritized. Note in comments which phase of the pandemic when applicable (early shutdown in spring 2020, fall, winter 2021, etc.)</p> <p>RQ: What impact has COVID-19 had on the delivery of preventive care (including cancer prevention and screening) and chronic care management. What immediate impact did this have on delivery of cancer prevention?</p>
+Cancer prevention_mammography	Use to track when a participant is discussing mammography. This code should typically not stand alone and should be co-coded with other codes (e.g. telemed_cancer care)
+Cancer prevention_smoking cessation	Use to track when a participant is discussing smoking cessation (e.g. quitline referrals, counseling). This code should typically not stand alone and should be co-coded with other codes (e.g. telemed_cancer care)
Impact_chronic care	<p>Describes the impact that COVID had on chronic care management at the CHC.</p> <p>RQ: What impact has COVID-19 had on the delivery of preventive care (including cancer prevention and screening) and chronic care management?</p>
Information/Assistance_Needed	<p>Describes information or assistance the CHC still needs to address the pandemic (does not include telemedicine support—see Telemedicine codes)</p> <p>RQ: What information and assistance do they anticipate needing over the next several months as the pandemic continues to unfold?</p>
Information/Assistance_Received	<p>Describes information or assistance the CHC initially utilized to address the pandemic. Includes description of orgs providing support, state partnerships, supplies received. (does not include telemedicine support—see Telemedicine code)</p> <p>RQ: What information and assistance did the CHCs receive initially?</p>
Vaccine efforts	Describes information related to vaccine rollout at the site
